Trustee Hall seconded the motion. On a roll call vote:

AYES: Johnson, Crider, Wilkerson, Hall, Robertson and Weathersby – 6

NAYS: None

Motion carried 6-0.

Public Participation

Char Mitchell called in on behalf of the Juneteenth Planning Committee. She invited the Mayor and the Board to attend the events. There will be music on Friday 18th at a location to be determined. Events will be held in Wabash Park from noon to 6:00 pm on June 19. The Mayor will read a proclamation at 1:00 pm.

Items from Mayor

- (A) The Mayor stated he would appoint Janet Gray, Village Clerk and Lt. Justin Bouse, Police Department as of Freedom of Information Officers for the Village. This will go to the Board for approval.

- (B) The Mayor advised the Board of the removal of Sherry Faulkner from the Human Relations Committee. Ms. Faulkner has moved out of Rantoul and is no longer eligible to serve on the committee. A letter was sent notifying her that she was ineligible to serve and was being removed from the committee. The Mayor is required to inform the Board of this action. No other action is needed.

Items from Trustees

- (A) Trustee Hall thanked the Mayor, employees, and staff for a wonderful Tuskegee event.
- (B) Trustee Crider mentioned that the ribbon cutting ceremony for the Sports Complex was very nice. She asked how information was sent out about Village events. Administrator Eisenhauer said he sent out information to Trustees weekly and will be getting with Chris Huston in IT to make sure these emails are being received, and if not to resolve the issue. Events are also posted on the Village Website and Facebook page. Trustee Crider also stated that the Rantoul Safety Task Force will meet on June 12 at the RTHS cafetorium.
- (C) Trustee Weathersby stated that the Rantoul Safety Task Force will meet June 12. She said the Regional Plan Commission is a member of the Rantoul Chamber of Commerce which also disburses information about events.
- (D) Trustee Johnson thanked everyone who attended the Rudzinski Park ribbon cutting.

Items from Clerk

- (A) The Clerk reviewed the list of minutes for approval: May 4, 2021 Special Board Meeting; May 4, 2021 Regular Study Session; May 10, 2021 Special Board Meeting and May 11, 2021 Regular Board Meeting. This will go to the Board for approval.
- (B) The Clerk informed the Board that she is appointing Tana Ward as Deputy Clerk and that Ms. Ward has accepted.

Items from Administration

- (A) The Administrator was approached a few months ago about the placement of new stop signs in the Indian Hills subdivision. He reached out to the neighborhood and the homeowners' association to get their thoughts on the proposal. Public Works also reviewed the request to make sure that new signs would not present a sight hazard or impeded traffic flow. Two new signs were proposed: one on the northeast side of Niepswah and Fox Ridge and one on the southwest side of Niepswah and Deerfield. This will go to the Board for approval. Trustee Crider asked about researching alternate traffic calming measures such as traffic cameras, more police patrols, or radar speed limit signs. She asked if the citizens in the area were satisfied with the Village's proposal. The Administrator said they were. Trustee Crider requested that the Village look at alternatives for the Village as a whole.

NOTE: The Administrator researched the possibility of installing speed limit radars with cameras that would automatically write tickets for those who were driving over the speed limit. The State of Illinois only allows this type of traffic camera for communities greater than 1,000,000 in population.

- (B) Currently the Village does not have funds available in their Micro Loan account to lend to businesses for assistance and the zero percent financing previously offered is no longer available through the federal program. The Micro Loan Supplemental Assistance Program would provide payments of the interest-only portion of loans to local financial institutions participating in this program. The Administrator reviewed the guidelines and requirements for the loan program. This item will be taken to the Board for approval.
- (C) The Village of Rantoul has been asked to sign a Resolution encouraging the Federal Government to increase Amtrak service from Champaign to Chicago. This Resolution is being presented by the Champaign County First Group and will be signed by other communities in the County. This item will go to the Board for approval.

Re: Vacant Lot Purchasing Program

On 12 February 2019, the Village of Rantoul Board of Trustees voted to approve Resolution Number 2-19-1277, a RESOLUTION OFFERING A VACANT LOT PURCHASING PROGRAM. At the time of its passage, six lots were included as part of an appendix to sell those lots through the program's process.

This month, there are four additional properties we would like to sell under this same VACANT LOT PURCHASING PROGRAM process. The Board of Trustees are asked to also allow for the sale of:

1674 Harper
1113 Eastview
710 South Century Boulevard Lot Number 29
710 South Century Boulevard Lot Number 30

With your approval, these properties will be marketed for sale using the parameters of the program. Thank you for your consideration.

ITEM: Wastewater Treatment Plant - South Traveling Bridge Filter	DEPARTMENT: Public Works
AGENDA SECTION:	AMOUNT: \$312,314.00 \$ 10,000.00 - Contingency \$322,314.00 - Total
ATTACHMENTS: ☐ ORDINANCE ☐ RESOLUTION ☒ OTHER (See Summary Highlights) ☒ SUPPORTING DOCUMENTS	DATE: June 24, 2021
SUMMARY HIGHLIGHTS: At this time, it is recommended that the first (south) of the two (2) Traveling Bridge Filters at the Wastewater Treatment Plant (WWTP) be refurbished/rebuilt in 2021-2022 with the second filter being rebuilt in the Fiscal Year 2022-2023. As this is a unique and specialized filtering system, Public Works has contacted the original material vendor and the installation contractor for pricing. Due to their poor performance this past year, in January 2021 Aqua-Aerobic Systems came to provide a site assessment of the Traveling Bridges, the said report is attached for your reference. For material, a quote was provided by Aqua-Aerobic Systems, Inc. in the amount of \$312,314.00. A contingency fund of \$10,000.00 is requested to address any unforeseen circumstances. The Traveling Bridge Filters are key components in removing solids from the waste treatment process and their decline in performance has compromised the efficiency of the plant. The refurbishment will benefit the operations and ensure on-going compliance with the WWTP IEPA discharge permit requirements. The filters were last refurbished in 2012-2013. The project was included in the FY22 operating budget in line item #536-1180-430.75-70 for this service.	
RECOMMENDED ACTION: Public Works recommends the waving of the formal bidding process and accepting proposals for material from Aqua-Aerobic Systems, Inc. in the amount of \$312,314.00, and establishing a contingency fund of \$10,000.00 to refurbish the first (south) of the two (2) Traveling Bridge Filters at the Wastewater Treatment Plant (WWTP)

OBJECTIVE

An assessment of the Automatic Backwash Filters at the Rantoul, IL WWTP was conducted on January 24, 2021 by Eric Renner of National Water Treatment Service. The purpose of the visit was to evaluate the condition of the filters. The contact on site was Tyson Royer.

This site has two 16' W x 90' L concrete filters, originally installed in 1984.

UNDERDRAIN OBSERVATIONS

The cell dividers were straight and are in generally good condition.

The filter with the porous plate underdrain exhibited media loss when viewed from above the filter bed. A significant amount of filter media loss was observed in the effluent channel, as well as, beneath the porous plates in individual cells. These items point to the fact that the underdrain has failed. Failure is typically due to caulk degradation over time. Post holing was observed in the filter media, which is indicative of a fouled underdrain. Some retaining angles have pulled away from the cell divider. The loss of media and caulk observed in this filter would be expected to worsen over time, to the point where it would eventually affect the effluent quality and solids holding capacity of the filter.

The underdrain porous plates on the second filter had been replaced with slotted pipe. When the porous plates were removed, the support ledges were left intact. Filter media was observed in the effluent ports of the slotted pipe. Filter media was also observed in the effluent channel. These items point to the fact that the underdrain has failed.

Five bucket tests were performed to determine the level of fouling of the underdrain. To perform a bucket test, a three foot section of the underdrain was exposed in one cell. A 5 gallon bucket of water was poured on the exposed underdrain. The water should pass through the underdrain in approximately 5 seconds. The result of the bucket tests were over 45 minutes per test. A bucket test time greater than 30 seconds indicates the underdrains are severely fouled. The severely fouled underdrains have dramatically reduced the hydraulic capacity and solids loading capacity of the filters, as well as make the backwash less efficient. It is also dramatically increasing the frequency of the backwash, and the volume of backwash water generated.

BRIDGE, DRIVE, WASHWATER HOOD and PIPING OBSERVATIONS

The 304 SS bridge weldment is in good condition. The washwater piping is in fair condition, with biological slime observed on the piping surfaces. The level electrodes are in good condition. Both the washwater and backwash pumps are functional and in fair condition. The drive, bearings, seals and wheels are in good condition.

WEAR STRIP & BACKWASH SHOE

The backwash shoe is not adjusted properly and is not making a good seal with the effluent ports. The backwash shoe is not tracking properly on the effluent wall. This lack of good contact between backwash shoe and effluent wall is leading to a poor seal and inefficient backwash. A new wear strip can be installed, so that the backwash shoe seals properly to improve backwash efficiency.

WASH WATER TROUGH

The washwater trough is in good condition.

CONTROLS

The controls for the filters are functional, however, some of the parts may be obsolete and replacement parts may not be available. Ultimately a replacement of the controls may be necessary.

SKIMMER SYSTEM

The skimmer system is in good condition.

FESTOON SYSTEM

The electric cable, trolleys and support mast are in reasonable condition

RAILS

The steel rails and stainless steel rail caps are showing corrosion, and the corrosion is causing the rail caps to lift off the rails, however the bridge is still tracking adequately.

CONCLUSIONS

Both the porous plate and slotted pipe underdrains are severely fouled and that is causing severely reduced hydraulic capacity and reduced solids loading, in addition to causing an inefficient backwash for both filters.

Loss of filter media was observed in the effluent channel, and below the porous plates. Media was also observed in the slotted pipe. Both filter underdrains are severely plugged and the underdrains have failed.

RECOMMENDATIONS

Aqua-Aerobic Systems Aftermarket Department recommends the following actions:

- Replace the porous plate underdrain. This would encompass removing and replacing the porous plates, sealant, and retaining angles. The cell dividers would remain in place.
- Replace the slotted pipe underdrain. This would encompass removing the slotted pipe and replacing with porous plates, sealant, and retaining angles. The cell dividers would remain in place.
- Add a polypropylene wear strip and adjust the backwash shoe.
- Replace the rail and stainless steel rail caps.
- Installation Training and Start-Up Services by a factory trained Aqua-Aerobic Systems Field Service Specialist.

ITEM: Motion to Approve <u>Ordinance No. 2674</u> , AN ORDINANCE AMENDING THE FY22 ANNUAL BUDGET	DEPARTMENT: Comptroller
DATE: July 13, 2021	AMOUNT: \$7,545,064
ATTACHMENTS: 1. - Budget - FY22 Amendments - Combined Files for Board Packet	ADMINISTRATIVE NOTES:
SUMMARY HIGHLIGHTS: In effort to identify whether unused FY21 budget dollars should be carried forward to the next fiscal year, we review expenditures that were approved for payment in FY21, but were not paid in FY21. Then, we carry those unused budget dollars forward to the new fiscal year. This process allows us to pay FY21 expenditures in FY22 using budget dollars that have already been approved and allocated in previous budget years. Situations like these are usually caused by timing differences where products or services received prior to year-end are not billed to us in time for them to be paid in the correct fiscal year. Additionally, this year, the pandemic caused some projects to be delayed or even postponed. \$6.93 million of the \$7.55 million amendment is related to construction, electric, lighting, landscaping, equipment expenditures, retainage, etc. that have been, or will be, incurred related to the Sports Complex. These are considered capital expenditures, will be carried as assets on the Village's books, and will be depreciated over the useful life of the assets. The bulk of the remaining \$620,000 in amendments are primarily related to the following projects: ▪ Maplewood Drive resurfacing & sidewalks ~ \$138,000 ▪ Water Main Project ~ \$107,000 ▪ Stonebridge SAN Interceptor ~ \$71,000 ▪ Roof Replacement Projects ~ \$91,000 ▪ Meter Upgrades ~ \$53,000 ▪ Waste Water Treatment Plant Digester Lid ~ \$33,000

ATTACHMENTS: (X) ORDINANCE () RESOLUTION () OTHER (See Summary Highlights) () SUPPORTING DOCUMENTS	DATE: July 6, 2021
SUMMARY HIGHLIGHTS: Willow Pond LLC, is requesting that the property located at the Southwest corner of Country Club Lane and Martin Street and commonly known as 1114-1116 Country Club Lane be rezoned from RC Recreation District to C-2 General Commercial to allow for the legal conforming use of the existing buildings at that location. The petitioner is not proposing physical improvements to the existing buildings on the property but the rezoning does allow for legal conforming use of the buildings and also affords the owner the ability to subdivide the property and place each of the 3 existing buildings on a separate lot. The subdivision platting would be reviewed and approved administratively after the rezoning occurs. No correspondence or testimony was received from neighboring property owners expressing any concerns or objections. The property has historically been utilized for commercial purposes and the requested rezoning is consistent with the Village's adopted Future Land Use Map.	
RECOMMENDED ACTION: Approve Ordinance Amending the Zoning Map to rezone SW corner of Martin and Country Club (1114-1116 Country Club) from RC to C-2 General Commercial. The Planning & Zoning Commission recommended approval by a 5-0 vote and Staff supports Approval of this request.

Forsyth, IL 62535

Dear Mr. Horve,

The Village of Rantoul is excited about, and appreciates, your interest in and desire to develop a Hampton Inn by Hilton hotel on the property at 920 Broadmeadow Road. As you know, with the addition of the Rantoul Family Sports Complex, along with other destination location attractions in our community, the need for additional overnight stay opportunities exist. Following our discussions, we strongly believe a partnership with Horve Hospitality is a great fit for our community, and are enthusiastic about the possibilities ahead.

In order to facilitate this development, we recognize and understand that due to challenging economic times, some incentives the Village can provide are required in an effort to make the project financially feasible. Please keep in mind that the commitment of these incentives outlined in this letter is subject to a mutually agreed upon development agreement that will need to be approved by the Village of Rantoul Board of Trustees. These incentives are also based on, but not limited to, Horve Hospitality constructing the following:

Hampton Inn by Hilton with at least the following amenities:

- no less than an 80 room configuration
- room configuration includes no less than 8 suites
- minimum 80 parking spaces
- minimum four (4) story building
- facility includes full size indoor swimming pool
- At least one (1) meeting room
- exterior gathering space with the inclusion of grills, outdoor furniture

The Village is prepared to make the following incentives available to assist with the property acquisition and construction of a Hampton Inn by Hilton hotel at 920 Broadmeadow Road:

- Tax Increment Financing-Property Tax Reimbursement—the Village will reimburse Horve Hospitality 40% of the property tax increment generated through this development, and for any and all Tax Increment Financing eligible project costs, beginning the first year taxes are paid on the new development and each subsequent year for ten consecutive years, with a total reimbursement not to exceed \$1,500,000 over the ten year period.
- Hotel-Motel Tax Rebate—the Village, at the end of each calendar year, shall rebate back to Horve Hospitality 50% of Hotel-Motel taxes generated by the project for a period of ten years beginning no later than July 1, 2022.
- Enterprise Zone Sales Tax Exemption—the Village will assist Horve Hospitality in completing all necessary documentation to ensure full advantage of the Enterprise Zone Sales Tax Exemption, including abatement of state and local sales tax on all building materials purchased and installed at the project location.
- Facility Opening Rebate—the Village will, upon completion of construction, issuance of a certificate of occupancy and opening of the hotel, provide Horve Hospitality Management, Inc. a one time “rebate” of \$75,000 to be put towards land acquisition, site preparation, and construction costs.
- Permit Fees—the Village will waive all permit fees associated with the construction of the project.

Based on the projections of the scope of this project, we anticipate the incentives offered will amount to the following total financial package:

Tax Increment Financing-Property Tax Reimbursement	\$ 1,500,000
Hotel-Motel Tax Rebate	\$ 450,000
