AGENDA ITEM

ITEM: Authorize the Purchase of three 20 MVA 3-Phase Transformers for the Proposed Construction of the New Prospect Substation Project from Virginia Transformer Corporation in the amount of \$6,088,500.00, with a \$100,000.00 Contingency	DEPARTMENT: Public Works
DATE: March 4, 2025	AMOUNT: \$6,088,500.00 \$100,000.00 - Contingency
ATTACHMENTS: 1. BHMG Engineers, Inc - Transformer Bid Evaluation	ADMINISTRATIVE NOTES:
SUMMARY HIGHLIGHTS: This agenda item provides for the purchase of three (3) three-phase 20 MVA (69kv-13.8kv) transformers from Virginia Transformer Corporation in the lump sum amount of \$6,088,500.00 for the proposed construction of the New Prospect Substation project. On February 13, 2025, the Village of Rantoul opened sealed bids for the Prospect Substation Transformer Project. As the attached Bid Tabulation shows, three bids were received. Prolec-GE was the lowest construction bid of \$5,343,000.00, with a lead time of 3.6 years. Virginia Transformer Corporation was the second-lowest bid of \$6,088,500.00, with a lead time of 16 months. BHMG Engineers, Inc. estimated that construction costs would be approximately \$5,612,005.00. Virginia Transformer Corporation's bid value is approximately 8% above the cost estimate. Delivery from Virginia Transformer Company would be June 2026. Therefore, BHMG recommends that the Village award the purchase to Virginia Transformer Corporation for a few reasons. Delivery costs would be 30% cheaper and over two years sooner from the American-made Virginia Transformer Company, while providing reliability for future economic development. In addition, the Virginia Transformer is more efficient, recouping 1/3 the cost difference over a 20-year period. A contingency fund of \$100,000.00 is requested to ensure the process goes smoothly, and offer flexibility should things change and buy spare parts. For this purchase, 30% of the cost (\$1,826,550.00) is for a down payment, 30% due at shop drawing submittal,	

and the remaining is to be paid on delivery. The purchase was included in the Fiscal Year 2026 Reserves Budget 541-1180-430.75-70.

RECOMMENDED ACTION: Authorize the approval for the purchase of three (3) - three-phase 20 MVA (69kv-13.8kv) transformers from Virginia Transformer Corporation in the lump sum amount of \$6,088,500.00 for the proposed construction of the New Prospect Substation project with a contingency of \$100,000.00.

Dear Jake:

The Village received and opened bids on February 13, 2025, for the transformer purchase, a part of the Prospect Substation project. A total of three (3) bids were received and have been reviewed for completeness and ability to meet specification requirements. Below is a summary of the bid tab:

Bidder	Proposal 1 Qty 1 XMFR	Proposal 2 Qty 2 XMFR	Proposal 3 Qty 3 XMFR	Proposal 4 Qty 1 XMFR + FR3 Fluid	Proposal 5 Qty 2 XMFR + FR3 Fluid	Proposal 6 Qty 3 XMFR + FR3 Fluid	Lead Time (Weeks)
WEG	\$2,078,200	\$4,156,400	\$6,234,600	\$2,207,000	\$4,414,000	\$6,621,000	130 - 140
Prolec-GE	\$1,781,000	\$3,562,000	\$5,343,000	No Bid	No Bid	No Bid	176 - 189
Virgina	\$2,029,500	\$4,059,000	\$6,088,500	\$2,269,500	\$4,299,000	\$6,328,500	60 - 65

Prolec-GE was the low bid, but they did not bid on the FR3 Fluid option. Prolec-GE's low bid was under our Engineer's Estimate of \$5,612,005, but the other bids were higher. From a lead time standpoint, Virgina was lowest by far. The bids were evaluated on a 20-year life cycle, considering purchase price and cost to operate, which is shown in the attached evaluation sheet. The Prolec-GE unit was the most economical option for total price, while Virgina had the best overall efficiency. From a quality standpoint, we have done many projects with all brands, and they have a good list of reference completed projects. When selecting a long-life product, price is not always the only thing to consider, as lead time, efficiency, and quality need to be considered as well.

Therefore, it is the recommendation of BHMg to award the project to Virgina Transformer on a wholistic view considering overall price, efficiency, and lead time. Due to the urgency of this project, lead time is a critical factor as the Village is still at risk of another equipment failure. With Virgina Transformer's lead time about 3 times better than the low bid, we believe the improved lead time is worth the cost. Regarding the decision about how many transformers to order, we still recommend ordering 3. We do not see lead times or price escalation improving anytime soon, and the Village will have good use for all 3 transformers since the existing utility's infrastructure is approaching end of life. As far as the option of the FR3 fluid, there are no performance benefits but there are environmental advantages and reductions in construction cost.

Should you have any questions concerning the bids or the project, please do not hesitate to contact us.

Sincerely,

BHMg Engineers, Inc.

ATTACHMENTS: 1. 03-25-1433 Resolution - Authorizing Interventions Property Tax Appeal Board	ADMINISTRATIVE NOTES:
SUMMARY HIGHLIGHTS: When property owners appeal their property taxes, often the Village will intervene at the local level. On occasion, property owners may appeal the Board of Review decision to the Illinois Property Tax Appeal Board. In order to intervene at the State level, a resolution by the Corporate Authority is required; therefore this Resolution would be a standing authority to allow the Village Attorney to file requests to Intervene in Appeal Proceedings with the Property Tax Appeals Board to represent the Village's interests with respect to such appeals challenging the assessed valuation of property within the Village and to further seek extensions of time, as may be necessary, to submit written or documentary evidence.
